

## Project Overview

As of April 3, 2013

## Third Avenue and Edgehill Road Improvements

The City of Columbus and private utility companies have moved to the next phase of improvements for West Third Avenue and Edgehill Road immediately west of SR 315. Work began in June 2012 with utility work and storm sewer installation. No work will be done on the railroad viaduct during 2013.

**\*NOTE: Third Avenue will be restricted to eastbound-only traffic between Edgehill Road and Olentangy River Road starting April 3, 2013. Westbound traffic on Third Avenue will be detoured to Fifth Avenue at Edgehill Road. This restriction will be in place approximately four to five weeks. Following the eastbound-only restriction, there will be a full closure of Third Avenue between Olentangy River Road and Edgehill Road until project completion.**

### April 2013– Fall 2013 - Department of Public Service

Third Avenue between Olentangy River Road and Norton Avenue

- Widen, reconstruct and resurface road
- Project includes curbs, ramps, sidewalks, shared-use paths, street lights, updated traffic signals and signs
